

CLASSIC SUPER STOCK TRACTORS Prepare for 2020 Season

Fifteen events to greet the Classic Super Stock division

The Hubner Seed sponsored Classic Super Stock division is going to enjoy another full season of pulling in 2020 with USA-EAST Sled Pulling. Fifteen events are slated for this summer each allowing competitors to gather points in the Hubner Seed Series culminating with a points championship at season's end with great end-of-season point fund money on the line. The 2020 season will begin at the Mile Branch Grange Fairgrounds near Alliance, Ohio on June 6th and will end on October 3rd at the Columbiana County Fairgrounds in Lisbon, Ohio during the annual "Night of Mayhem" event benefitting the Make-A-Wish Foundation.

Allen Heasley from Ravenna, Ohio has captured the Hubner Seed Championship in each of the past two years with his Farmall named the "Tin Man" and will look for a three-peat in 2020, but he and his team will have to contend with at least twelve very stout tractors all vying for the top spot this year.

###

Full Pull Productions, Inc. was created in 1987 as a production company for the sport of Tractor and Truck Pulling. In 1991 the Big Rigs Pulling Series was added to this mix in order to bring modified semi truck pulling under this same umbrella. And in 2005 our in-house sanctioning body named USA-EAST Sled Pulling was created.
