

## **CANFIELD FAIR to offer "CEN.PE.CO. UNLIMITED CHALLENGE"**

The Canfield Fair in Canfield, Ohio presents the first ever "Cen.Pe.Co Unlimited Challenge", a world's championship class at their September 5<sup>th</sup> pulling event. Canfield is the largest agricultural fair in the state of Ohio and is located in Mahoning County near the Pennsylvania border and just south of Interstate 80 and Youngstown, Ohio.

Sponsored by the Central Petroleum Company of Cleveland, Ohio and Wolcott, Iowa, the "Unlimited Challenge" is open to all Super Stock tractors currently competing in the United States and abroad. Both Alcohol and Diesel Super Stock tractors are welcome at the 8000 pound weight limit. The event will be conducted without points. Pullers do not have to hold a membership in any organization in order to register for the class. This is truly an OPEN pulling class.

As a premier class of pulling the Unlimited Super Stock tractors will compete for a total purse of \$20,000.00 at Canfield. The winner's share will be \$5000.00 marking one of the largest purses ever offered to a single class of pulling in the sport. The eventual winner will also receive a special trophy award from Cen.Pe.Co. at the conclusion of the class.

Two of the top Super Stock Tractors in America will pull at Canfield in September. Jordan Lustik from Eighty-Four, Pennsylvania will lead the way to Canfield with his Cen.Pe.Co sponsored "Silver Bullet", a 650 cubic inch machine with four turbo-chargers on alcohol. This tractor has garnered ten national championships for the Lustik Team which was started by Rich Lustik and has been sponsored by Central Petroleum for many years. The Ross Team from Waynesburg, Pennsylvania will bring "Triple Bypass", the three-time diesel Super Stock champion to Canfield for the 'Unlimited Challenge'. This three-charger diesel tractor took on and beat the alkie at the end of the 2019 season after garnering the NTPA Grand National crown under the guidance of Colin Ross. It is expected that the second diesel Super Stock tractor from the Ross Team, driven by Lily Ross, will also pull at Canfield.

Also committed to the event is former PPL Unlimited Champion Jeff Hothem from Dellroy, Ohio with his "Blaster" tractor for the Fully Loaded Pulling Team. Hothem is also a former Ohio State Super Stock champion. And Kevin Campbell from Washington, Pennsylvania with "Controlled Chaos" has indicated that the alcohol fueled machine owned by Great Britain's David Jones will be in attendance for the Canfield pull offering an international flavor to the first-time event.

Two John Deere tractors that have seen limited action over the past years are the overhead cam big block machines from Fred Hildenbrand (Ruffsedale, PA) "Slow Walkin' John" and from Stanley Auen (Saltsburg, PA) "Froggy". These two tractors, largely banned from national competition due to their 650 cubes and multi-charger overhead cam engines, will be eligible to hook in the

"Cen.Pe.Co Unlimited Challenge" giving the class some extra added power and new color.

The Canfield Open Tractor and Truck pull annually offers two tracks of side-by-side continuous action and 2020 will be no different. In addition to the "Cen.Pe.Co Unlimited Challenge" four other USA-EAST sanctioned divisions will participate. These classes are: Mac Trailer

**Big Rigs** Semi Trucks; American Crop Insurance Limited Pro/Super Farm Tractors; Warren Diesel Injection 'Run What Ya Brung' gas and diesel 4x4 trucks and new this year an invitational class for the Zeigler Diesel 2.5 diesel 4x4 trucks. Also new on the program for 2020 will be a special invitational class of Mini Rod Tractors from the Ohio Mini Pullers Association.

**Saturday, September 5<sup>th</sup> at 7:00pm is the date for this awesome pulling spectacular.**
